

432g to 0g

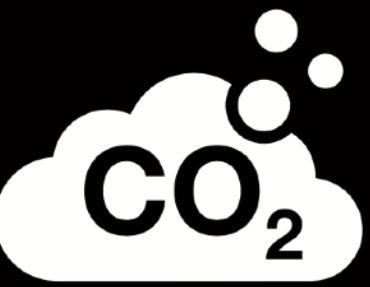

Do you know
the carbon footprint of
your CM program?

We deliver CBM information, including:

- CM Points installation
- Data collection
- Data analyses

generating only of 432 g CO₂ per machine per one year.

Guaranteed carbon neutral CM Program

Relianeering AB plants trees to offset ReSES.net emissions and neutralize the carbon footprint of your CM program.

RELIANEERING IS A
FOREST SUPPORTER!

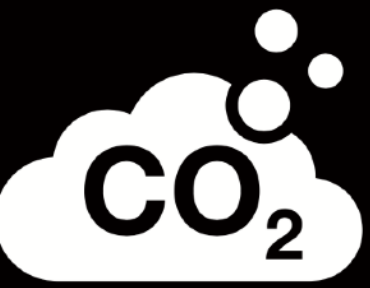

Together
we have planted:

110 Trees
=
~2420kg

of CO2
neutralized
per year

GROW MY TREE

A graphic with a rounded rectangular border showing a lush green forest. The text is overlaid on the image. At the bottom, there is a white semi-circular button with a tree icon and the text 'GROW MY TREE'.

0 g CO₂

average per machine per year

is the CM program carbon footprint using ReSES.net

Disposal waste per machine (from CM Points):

- RQ studs: 125g recyclable or reusable steel
- RQ caps: 25g recyclable plastic

101

For every logger returned to Relianeering, we will donate 101 Euros to an environmental organization.
